

Shingle & Shake Easy Installation Tool

by SBC

For sidewall and roofing
White Cedar and Red Cedar
Shakes & Shingles

Work Smarter, not harder.

With our new Easy Installation Tool, installing shakes & shingles has never been **faster** and **easier**!

Say "goodbye" to all those extra nail holes to color-match and fill; so long measuring, leveling and snapping chalk lines on every course after course after course...

SBC innovates again with its Easy Installation Tool that can help you install shingles & shakes up to **three times faster** than with traditional methods!

It works on both sidewall and roofing, with wood (white & red cedar) and composite shingles.

This new tool completes our SBC Easy Installation System that includes our :

Wider shingles
Grading on both faces
Truest R&R shingles on the market
Exclusive Easy Nailing System

An embossed "nail line" into each shingle to provide an instant visual guide for fastener placement.

Pre-stained touch up kits

Small bottles of paint easy to carry and use. Simply give them a shake remove the cap and apply.
